About Litlong

LitLong is a unique map of literary Edinburgh. Behind it sits a database of 50,000 excerpts from around 550 books (novels, short stories, letters, memoirs). Excerpts feature the use of an Edinburgh place name, allowing each to be given a set of coordinates and pinned to the map. The database was created using state of the art text-mining tools by a project team involving researchers in both English Literature and Informatics at The University of Edinburgh.
